DANIEL CALDERON

Welcome to the Class of 2026 Eighth Grade Graduation. My name is Daniel and I am an eighth-grader moving to the ninth grade. In my free time I like to go out, and in the future, I hope to live in a really modern house in a big city.

Stanbridge is a great school because I have had good experiences with my friends. One of the best parts of my Middle School experience was when I met Max for the first time and talked about getting F's with him (we were only joking, of course!).

As we look ahead, make sure you have fun, don't work too hard, and stay in touch with each other. In high school I look forward to the overnight trips.

I would like to thank my family and my friends for coming to my graduation. Let's cheer the graduates and thanks for coming!

ANDREW LE

I want to welcome all of the families to campus and say congratulations to my fellow classmates. For those of you who don't know me, my name is Andrew Le. In the future, I want to go to college and study art and math.

Stanbridge is a great school because I get to learn in small groups and meet a lot of friends. One of my favorite memories was the talent show. As we look ahead, remember to be kind and work hard. In high school, I look forward to being a singer.

I would like to thank the teachers for creating great projects. Let's all give a round of applause for our graduates!

BRODY LOPEZ

Hi, I am the one known as Brody. I am good at reading, writing, and using my imagination. I am hesitant about high school and growing up. I would rather age backwards and go back to being a one year old.

School has always been challenging for me, but I am still working on it. In my perfect world, I would spend my days lounging with my cat, Poppy, on our couch. That is my happy place.

One day, I would like to live in a larger city where I can meet new people, go to shows, and learn new things. Thank you for listening.

NAYAN MARWAH

Hello and welcome to Nayan's grad speech.
I will be telling you of my 8th-grade year at Stanbridge.
It is a cringy story about friendship.

My name is Nayan Marwah, and I just moved to Stanbridge this year.
Some of my friends claim they don't like school, but I think they are lying.
They just don't want to be in school all day.

I loved beach day. I am still mad I missed our experiential. It was not my fault.

Some advice: don't blindly follow people.

In the future, I hope to be successful and change the world.

I want to thank my mom and dad for helping and supporting me.

AIDAN PENG

EIGHTH-GRADE CLASS SPEAKER

Welcome to the 2022 8th grade graduation!
For those of you who don't know me, I'm Aidan!

I have really enjoyed my Middle School experience at Stanbridge. Stanbridge is a great school because it is a K-12 program, so you don't have to switch schools as often. Plus, you get to cool electives such as broadcasting in high school.

One of my favorite memories was Beach Day because we got to build sandcastles. Another memory was from Tech class when we got to do Roblox. My favorite memory of all was in the sixth grade in Blue Group Humanities with Liz Ko, Max, Daniel C., and Gustavo. It was special because I feel nostalgic looking back on those times.

In terms of advice for the future, make sure to try your best and to make lots of new friends. I hope we all keep our friendships as well.

In high school, I look forward to tech class because I'm interested in the field of technology.

I would like to thank Daniel, Max, Gustavo, Katherine, and Tae for being my friends. One teacher who really inspired me is Liz Ko because she taught me a lot in English class.

Congratulations 8th-graders! Let's all cheer for the graduates!

MAX ROHRMEIER

Welcome to the class of 2026 Eighth Grade Graduation! I am Max.

In my free time, I like to play video games. I want to work at McDonalds in the future.

My favorite part of the year was tech class because I liked making Roblox.

Good Quotes:

“Everything in life is luck.” –Donald Trump

“Jay is a nice teacher.” –Tyler Mak

In high school, I look forward to learning more in tech class.

Congratulations eighth-graders!

GUSTAVO SILVEIRA

EIGHTH-GRADE CLASS SPEAKER

Hey there and thanks for coming. My name is Gustavo. You may know me as that crazy kid who acts like a dinosaur on the playground. Trust me, I did not expect to be up here talking to you all today. But my class thought it was a good idea, so thanks guys. Yay...

Going to high school is not easy. It can be scary. Trust me, I'm terrified. But I also remember being terrified of going to Middle School and it turned out just fine. We learned cool things and made great friends.

For me, Stanbridge has always been a safe place to learn and to be myself. You can tell by the way I act during recess. Some of the reasons why I like this school are: Great friends; Nice teachers; It's a safe place; There is a simple schedule; and there's not a lot of homework.

We've made some pretty good memories over the years: from overnights, to field trips, and Beach Day. And some weird ones, like the Subway-McDonald's war (that no-one remembers except me). There was also that time I broke a window on an overnight. Don't question it.

This is the part where I'm supposed to be inspirational and give you good advice, like "follow your dreams." Yeah, I'm not really good at that, so here's some advice my mom gave to me: Don't let others judge you; Be true to yourself; Expand your horizons; and Be kind.

I'm not much of a planner and thinking about the future gives me anxiety. But as we move to high school, I am looking forward to dissecting things. :) We won't all be at the same place for high school, but the friendships that we've made here should continue.

I'd like to thank all the teachers for helping us learn important things and helping us with our work. I'd like to thank the friends for being our buddies and making school fun. And finally, I'd like to thank the families for caring for us and allowing us to go to this school.

So that's it. Congratulations eighth-graders. Thank you, and adios!

TAE SIM

I want to welcome everyone to Stanbridge Academy. My name is Tae Sim. In the future I want to be a really productive guy who has a job in data science, lives in a house in the Bay Area, and is overall a good, contributing member of society.

I'm interested in cars, Nerfing, and gaming. Stanbridge is great because the learning here is easier and I can make friends more easily. One of the best parts is when I went to the Lighthouse in Montera as a field trip.

Don't forget that everyone here is usually nice to each other and to you.

I want to thank my family for giving me great morals and for being patient, loving and inspiring me to become a productive person in life.

Congratulations fellow 8th-graders. Middle School was the first boss battle, and now it's time for the raid boss in High School, or the final boss.
